Dear Parent/Carer

Calculator for A Level Mathematics and Further Mathematics

Mathematics students in Year 12 and 13 need a calculator with statistical tables built into it. A basic calculator such as a Casio fx-991 CW ClassWiz is sufficient (see: <https://www.casio.co.uk/fx-991cw>). A graphical calculator such as a CASIO CG100 (see: <https://www.casio.com/uk/scientific-calculators/product.FX-CG100/>) coupled with a sound knowledge of how to use it gives students a significant advantage in examinations. Those taking Further Mathematics, will find a CG100 graphical calculator an especially useful (essential) tool. For A Level Mathematics and Further Mathematics at Newstead Wood School our recommended model of calculator is thus the CASIO CG100 Graphical Calculator.

As can be seen the CG100 has an RRP of £139.99 but all schools have access to special educational pricing and thus we can offer this calculator for £80. To purchase the CASIO CG100 graphical calculator for £80 please select the appropriate option on WisePay. Should you have any financial concerns with regards to payment, or if you are eligible for the [16-19 bursary](#), please contact finance@newsteadwood.co.uk in confidence.

Once ordered, calculators will be available from the Mathematics Office (please show proof of purchase when collecting your calculator).

Please contact me or any mathematics teacher if you have any further questions.

Kind regards

Mr J Davis
Teacher of Mathematics

Headteacher: Mr Alan Blount, MA, BSc, QTS
